

Murphy Bed

Assembly Instruction – Please keep properly for future reference.

If you find any missing boxes, damaged parts, or accessory shortages, please contact the customer service team of your purchasing channel immediately. We will resolve the issue as quickly as possible.

Arrive in 2 separate boxes and may not be part of the same shipment; Please install the product after receiving all the packages.

Dimensions

Width – 86.7 inch
Depth – 23.6 inch
Height – 41 inch

CONTACT US

- **Email: service@grandtunnel.com**
In order to receive assistance more quickly, please provide

THE FOLLOWING INFORMATION:

- Order number
- Purchase platform
- Purchase date
- Detailed description of the issue along with photos (if applicable)

Important – Please read these instructions carefully before starting the installation.

Safety and Care Advice

Important – Please read these instructions fully before starting assembly

- Check you have all the components and tools listed on the following pages.
- Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.

- During assembly do not stand or put weight on the product, this could cause damage.
- Assemble the item as close to its final position (in the same room) as possible.
- Assemble on a soft level surface to avoid damaging the unit or your floor.
- Parts of the assembly will be easier with 2 people.

power drill is set on a low torque setting.

- To reduce the likelihood of damaging your product please ensure that your

Care and maintenance

- Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.
- From time to time check that there are no loose screws on this unit.
- This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Handy Hints

- Assemble all parts and bolts loosely during assembly, only once the product is complete should you fully tighten the bolts
- Regularly check and ensure That all bolts and fittings are tightend properly.

WARNING

In order to help prevent overturning – please follow these instructions

To help prevent product toppling over please follow the below steps:

Use the anti tip stap or wall fixing method provided (if applicable)
Do not allow children to climb or hang on the furniture
Do not open more than one drawer at a time
Do not place heavy items in the top drawers
Do not place heavy items on top of the furniture, unless the furniture has been designed for this purpose

Please note that only the anti tip strap is provided.
You will need to provide wall plugs and screws applicable for your wall type

Safety Instructions / Warnings

Please read and follow all instructions carefully before installation and use.

- **WARNING: Risk of electric shock – Do not open or disassemble electrical parts.**
- **Use only the power cord specifically provided for this product.**
Plug rating: 12A 125V 60Hz 1500W. USB output: 5VDC Max. 2.1A.
- Do not use with damaged power cords or plugs.
- Keep power cables away from moving or sharp parts of the furniture.
- Do not use extension cords or power strips unless specifically approved for the load.
- This product is **not a toy**. Do not allow children to play with electrical components or moving parts.
- Children under 8 years old must be kept away from the furniture unless continuously supervised.
- Keep remote controls, control switches, and ports **out of children's reach**.
- Always **disconnect the product from power** before cleaning, maintenance, or relocation.
- Do not attempt to open, modify, or repair electrical components.
- **Repairs must be performed by qualified professionals only.**
- Do not insert any foreign objects into openings or mechanisms.
- Clean with a dry cloth or a slightly damp soft cloth. Do not use solvents.
- This product is intended for **indoor use only** in dry environments.
- Do not expose the furniture to moisture, liquids, or direct sunlight.
- Ensure stability and clearance around any moving parts (e.g., lift mechanisms, recliners).
- Do not overload power outlets or USB ports beyond the specified ratings.

FCC Information

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment!

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This product may cause harmful interference.
2. This product must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications to this product not expressly approved by the party responsible for compliance could void the user's authority to operate the product.

Note: This product has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This product generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the product off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the distance between the product and receiver.
- Connect the product to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for assistance.

CUSTOMER SERVICE GUIDE

Thank you for choosing our product! We are committed to providing you with excellent service. If you find any missing parts, damaged packaging, or product damage after receiving all packages, please follow the steps below to quickly contact our customer service team. We will do our best to resolve your issue.

1. Missing Parts

Verify Parts:

1. Refer to the “Parts List” in the manual to verify the name, specifications, and quantity of the missing parts.
2. Take a clear photo of the parts list and mark the missing parts with detailed information, e.g., “Missing 5 pieces of M6x30mm screws.”

Contact Us:

· By Email:

Send an email to service@grandtunnel.com, with the subject line “Missing Parts Issue.” Include the following in the email:

- A description of the missing parts and a photo of the parts list.
- Order details (order number, purchase platform, purchase date).

2. Product or Packaging Damage

If it affects normal use:

Steps:

1. Take clear photos or videos showing the damaged parts and the extent of the damage (multi-angle shots are recommended).
2. Email the photos/videos along with other details to service@grandtunnel.com, with the subject line “Product Damage Issue.”

Resolution:

After verification, we will arrange for a replacement part, product exchange, or refund as quickly as possible.

If it does not affect normal use:

Steps:

1. Contact our customer service team (by email: service@grandtunnel.com).
2. Provide a description of the damage and include relevant photos or videos.

Resolution:

We will provide repair guidance or an appropriate compensation plan based on the specific situation.

Contact Us:

· Customer Service Email: service@grandtunnel.com

Helpful Tips

To process your issue efficiently, please prepare the following information:

- Order details (order number, purchase platform, purchase date).
- Clear photos or videos.
- We are committed to providing quick and professional solutions, no matter the size of the issue, to ensure your satisfaction.

Thank you for your trust and support! We hope you enjoy using our product!

Parts List - Panels

Please check you have all the panels listed below

1 (1401*300*25mm x1)

2 (1401*300*25mm x1)

3 (1018*558*15mm x1)

4 (1018*558*15mm x1)

5 (1370*558*15mm x1)

6 (1370*97*15mm x1)

7 (1370*97*15mm x1)

8 (1378*300*4mm x2)

9 (1378*236*4mm x1)

10 (536*329*12mm x1)

11 (536*329*12mm x1)

12 (329*80*12mm x2)

13 (1365*666*21mm x1)

14 (1400*666*21mm x1)

15 (520*294*12mm x1)

16 (520*294*12mm x1)

17 (500*294*12mm x1)

18 (500*294*12mm x1)

19 (480*294*12mm x1)

20 (480*294*12mm x1)

Parts List - Panels

Please check you have all the panels listed below

21 (1139*169*15mm x1)

22 (1089*169*15mm x1)

23 (1039*294*12mm x1)

24 (1401*338*21mm x1)

inch

Using Camlocks

Step 1

Connect the male camlock as directed in the assembly instructions using a screwdriver.

DO NOT OVER TIGHTEN.

Step 2

Push the male camlock into the entry hole.

Step 3

Insert the female camlock as shown in the instructions.

Note: ensure that the arrow on the top of the camlock points towards the entry hole for the male camlock.

Step 4

Turn the female camlock clockwise with a screwdriver.

You should feel a click when the camlock is locked in place.

The joint is now secure.

Assembly Instructions

Assembly Instructions

Step 1

Step 2

Assembly Instructions

Step 3

Step 4

CAM-LOCK

Tighten until shoulder is flush with panel. Do not overtighten or undertighten (see example below)

Assembly Instructions

Step 5

As shown in the figure: Connect Parts (10) and (11) with Part (5), then secure them using dowels (A) and cam locks (C).

Step 6

As shown in the figure: Connect Part (7) with Parts (11) and (12), and fasten using dowels (A) and screws (Q).

Assembly Instructions

Step 7

CAM-LOCK

Tighten until shoulder is flush with panel. Do not overtighten or undertighten (see example below)

B x18

As shown in the figure: Install the screw rod (B) onto Part (3) and Part (4) respectively.

Assembly Instructions

Step 8

Use dowels (A) and cam locks (C) to connect Part (3) with Parts (5), (7), and (12), and tighten.

Step 9

Insert Part (9) into the grooves of Parts (3), (5), and (7). Insert Part (8) into the grooves of Parts (5) and (3).

Assembly Instructions

Step 10

Connect Part (3) with Part (6), and secure using dowels (A) and cam locks (C).

A x1

6x30mm

C x2

Step 11

After installing the No. 4 side plate, you need to put down the product and lock the screw from the bottom.

Please make sure that all side panels are fully stuck in the slot.

A x6

6x30mm

C x4

Assemble Parts (4), (5), (6), and (7), and secure them using dowels (A) and cam locks (C).

Assembly Instructions

Step 12

After installing the No. 4 side plate, you need to put down the product and lock the screw from the bottom.

C x5

Insert the cam locks (C) into Parts (5) and (12), and tighten them.

Step 13

A x4

Insert dowels (A) into Parts (3) and (4), then carefully slide the back panel (8) into the grooves of Parts (3), (4), and (6).

Assembly Instructions

Step 14

CAM-LOCK

Tighten until shoulder is flush with panel. Do not overtighten or undertighten (see example below)

B x4

C x4

Install the screw rod (B) onto Part (1), attach Part (1) to Parts (3) and (4), insert cam locks (C), and tighten.

Assembly Instructions

Step 15

H x3

As shown in the figure: Insert the hinge (H) into Part (1).
(Ensure the direction of H matches the enlarged diagram.)

Assembly Instructions

Step 16

Flip Part (2) backward 180°, and fix the hinge (H) to Parts (1) and (2) using screws (S).

Step 17

Insert the back-panel clip (L) into the back-panel slot, then secure it with screws.

Assembly Instructions

Step 18

180°
Turn the panel over

180°
Turn the panel over

Use screw (U) to attach slide rail section (Y-2) to Part (15). Flip the panel over and then use screw (U) to fix slide rail section (Y-1) to Part (15). Repeat the same process for Part (16). (Pay attention to the mounting holes for slide rails (Y-2) and (Y-1).)

Assembly Instructions

Step 19

Using the wrench (W), bolt (O), and nut (P), connect Parts (15), (16), and (21), and tighten securely.

Step 20

Use screw (R) to attach the wheels (F) to Parts (15) and (16), and tighten. Then use screw (U) to fasten the metal plate (J) to Parts (15), (16), and (21).

Assembly Instructions

Step 21

Turn the panel over

Turn the panel over

Use screw (U) to attach slide rail section (Y-2) to Part (17). Flip the panel over and then use screw (U) to fix slide rail section (Y-1) to Part (17). Repeat the same process for Part (18). (Pay attention to the mounting holes for slide rails (Y-2) and (Y-1).)

Assembly Instructions

Step 22

Using the wrench (W), bolt (O), and nut (P), connect Parts (17), (18), and (22), and tighten securely.

Step 23

Use screw (R) to attach the wheels (F) to Parts (17) and (18), and tighten. Then use screw (U) to fasten the metal plate (J) onto Parts (17), (18), and (22).

Assembly Instructions

Step 24

Use screw (U) to attach slide rail section (Y-2) to Part (19). Use screw (R) to fasten the wheel (F) to Part (19). Then use screw (U) to attach slide rail section (Y-2) to Part (20), and use screw (R) to fasten the wheel (F) to Part (20).

Assembly Instructions

Step 25

Use screw (Q) to connect Parts (19), (20), and (23), and tighten.

Step 26

Use screw (Q) to attach Part (26) to Part (23), and tighten.

Assembly Instructions

Step 27

Insert dowels (A) into Parts (19) and (20). Then carefully slide the drawer bottom panel (27) into the grooves of Parts (19), (20), and (23).

Step 28

CAM-LOCK

Tighten until shoulder is flush with panel. Do not overtighten or undertighten (see example below).

Use screw (N) to attach Part (25) to Part (24), then install the screw rod (B) onto Part (24).

Assembly Instructions

Step 29

C x6

Attach Part (24) to Parts (19), (20), and (26), then insert cam locks (C), and tighten.

Step 30

V x4

3x12mm

a x2

Use screw (V) to attach handle (a) to Part (24).

Assembly Instructions

Step 31

Try to find a partner to install with you, which can speed up the installation efficiency and shorten the time.

Please make sure that the balls in the tracks on both sides are pulled to the top, and then insert the tracks to ensure smooth entry.

1. Drawers must be horizontally put into the cabinets.
2. Make sure both sides sliders match well to avoid damage.

Attention:

1. Pull out the rail installed on the cabinet.
2. Align the slide runners on the drawer with the unit and push it carefully inside until it stops.

★ If the drawer does not go in smoothly please take it out and repeat the steps.

Assembly Instructions

Step 32

Try to find a partner to install with you, which can speed up the installation efficiency and shorten the time.

Please make sure that the balls in the tracks on both sides are pulled to the top, and then insert the tracks to ensure smooth entry.

1. Drawers must be horizontally put into the cabinets.
2. Make sure both sides sliders match well to avoid damage.

Attention:

1. Pull out the rail installed on the cabinet.
2. Align the slide runners on the drawer with the unit and push it carefully inside until it stops.

★ If the drawer does not go in smoothly please take it out and repeat the steps.

Assembly Instructions

Step 33

Try to find a partner to install with you, which can speed up the installation efficiency and shorten the time.

Please make sure that the balls in the tracks on both sides are pulled to the top, and then insert the tracks to ensure smooth entry.

1. Drawers must be horizontally put into the cabinets.
2. Make sure both sides sliders match well to avoid damage.

Attention:

1. Pull out the rail installed on the cabinet.
2. Align the slide runners on the drawer with the unit and push it carefully inside until it stops.

★ If the drawer does not go in smoothly please take it out and repeat the steps.

Assembly Instructions

Step 34

Pull the drawer slide fully out.

Step 35

Peel off the film from the back of pad (M), then attach the pad to the position shown in the diagram.

Assembly Instructions

Step 36

Use bolt (m) to attach handle (E) to Part (14).
Use screws (T) and hinge (G) to connect Parts (5) and (14).

Assembly Instructions

Step 37

Reminder:

When assembling part number 14, determine the correct orientation of the part by comparing with the pilot holes before inserting the hinge. If the alignment with the pilot holes is not 100%, adjust the orientation of the part before securing the hinge.

Use screws (T) to attach latch (I) and handle (D) to Part (13). Then use screws (T) and hinge (G) to connect Parts (13) and (14).

Assembly Instructions

Step 38

Flip Part (13) upward 180° , then flip Parts (13) and (14) together upward 90° .

Assembly Instructions

Step 39

Push the latch (I) upward to lock Part (13).

Assembly Instructions

Step 40

Flip Part (2) forward 180°. Close the drawer.

Assembly Instructions

Step 41

Z x2

Lock strap (Z) onto Part (1).

Step 42

b x4

X 4

b-1

X 4

b-2

As shown in the figure: Press and hold the slide rail release, and separate the slide rail (b) into (b-1) and (b-2).

Assembly Instructions

Step 43

Use screw (V) to attach slide rail (b-1) to Part (29), and lock the screw rod (B) onto Part (29). Use screw (V) to attach slide rail (b-1) to Part (30), and lock the screw rod (B) onto Part (30). (**Pay attention to the mounting holes of slide rail (b-1).**)

Assembly Instructions

Step 44

C x16

Use cam locks (C) to secure Parts (31) and (33) to Part (29). Then attach Part (30) to Parts (31) and (33), insert cam locks (C), and tighten.

Assembly Instructions

Step 45

CAM-LOCK

Tighten until shoulder is flush with panel. Do not overtighten or undertighten (see example below)

Fix the screw rod (B) to Part (28), and fix the metal plate (g) to Part (28). Insert dowels (A) into Parts (29) and (30). Attach Part (28) to Parts (29) and (30), insert cam locks (C), and tighten.

Step 46

Insert back panel 34. Insert the back-panel clip (L) into the back-panel slot, then secure it with screws. Finally, fasten back panel 34 with three screws (f).

Assembly Instructions

Step 47

Use screw (V) to attach slide rail (b-1) to Part (41), and lock screw rod (B) onto Part (41). Use screw (V) to attach slide rail (b-1) to Part (42), and lock screw rod (B) onto Part (42).

Assembly Instructions

Step 48

C x16

Use cam locks (C) to secure Parts (31), (32), and (33) to Part (42). Then attach Part (41) to Parts (31), (32), and (33), insert cam locks (C), and tighten.

Assembly Instructions

Step 49

CAM-LOCK

Tighten until shoulder is flush with panel. Do not overtighten or undertighten (see example below)

Fix the screw rod (B) to Part (28) and fix the metal plate (g) to Part (28). Insert dowels (A) into Parts (41) and (42). Attach Part (28) to Parts (41) and (42), insert cam locks (C), and tighten.

Step 50

Insert back panel (35). Insert the back-panel clip (L) into the back-panel slot, then tighten with screws. Finally, fasten back panel (35) with three screws (f).

Assembly Instructions

Step 51

Use screw (V) to attach the power strip (K) to Part (32).

Assembly Instructions

Step 52

Use bolt (e) to secure both side cabinets to the bed frame.

Step 53

Use screw (V) to fasten slide rail (b-2) to Parts (38) and (39).

Assembly Instructions

Step 54

Step 55

CAM-LOCK

Tighten until shoulder is flush with panel. Do not overtighten or undertighten (see example below)

Install the screw rod (B) on Part (36). Use bolt (j) to attach handle (E) to Part (36). Fix Part (36) to Parts (38) and (39), insert cam locks (C), and tighten.

Assembly Instructions

Step 56

1. Drawers must be horizontally put into the cabinets.
2. Make sure both sides sliders match well to avoid damage.

Insert the drawer into the side cabinet.

Assembly Instructions

Step 57

Flip Part (2) upward 180° and pull the drawer fully out.

Assembly Instructions

Step 58

Press the latch switch to release the latch. Flip Parts (13) and (14) downward 90° together.

Assembly Instructions

Step 59

Flip Part (13) forward 180°.

Assembly Instructions

Step 60

X x16

Cover the holes with sticker (d)
as shown in the diagram.

Assembly Instructions

Step 61

Please read the Guide to Wall Mounting & Fixings on the last page before excuting this step.

The unit is floor standing, but it is recommended that the unit is secured to the wall.

1. Move the unit into desired position.
2. Mark the wall with a suitable scribe the position of the fixing holes.

Warning:
Before drilling, check wall for hidden pipes and cables.

3. Drill holes and insert wall plug.
4. Attach strap(Z) to the wall.

A Guide to Wall Mounting & Fixings

Important note:

If plastic wall plugs (rawl plugs) are supplied with your product, e.g.:

- these are only suitable for use in masonry walls.

If you are in any doubt about the correct wall plugs for your wall, seek professional advice.

Failure of the product due to using the incorrect fixings is the responsibility of the installer.

Important: when drilling into walls always check that there are no hidden wires or pipes etc.

Make sure that the screws and wall plugs being used are suitable for **supporting your unit**. **Consult a qualified tradesperson if you are unsure.**

Hints:

- 1: General rule: always use a larger screw and wall plug if you are not sure.
- 2: Ensure you use the recommended drill bit to match the wall plug and hole size.
- 3: Ensure you drill the hole horizontally; do not force the drill or enlarge the hole.
- 4: Take extra care when drilling high walls, ceilings and ceramic tiles. Ensure wall plugs are inserted beyond the thickness of the ceramic tiles to avoid the tiles splitting or cracking.
- 5: Ensure wall plugs are well fitted and are a tight fit in the drilled hole.

Types of walls

You can use one of the following types of wall plug if your walls are made of brick, breeze block, concrete, stone or wood.

No.1 "General Purpose" wall plug

Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case. For light loads, general purpose wall plugs can be used.

No.2 "Plasterboard" wall plug

For use when attaching light loads onto plasterboard partitions.

No.3 "Cavity Fixing" wall plug

For use with plasterboard partitions or hollow wooden doors.

No.4 "Cavity Fixing – Heavy Duty" wall plug

For use when fitting or supporting heavy loads such as shelving, wall cabinets and coat racks.

No.5 "Hammer Fixing" wall plug

For use with walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasterboard. Always check the fixing is secure to the retaining wall.

No.6 "Shield Anchor" wall plug – heavy loads

For use with heavier loads such as TV and HiFi speakers and satellite dishes etc.

Care & Maintenance

Safety: always check the fitting and location to ensure your safety in and around the home.

Fitting: from time to time check the fitting to ensure the wall plugs or screws do not become loose.
