STEP6

To make the greenhouse more sturdy, after assemble the cover install the pressed film clips according to the marked points in the picture.

How to make the whole greenhouse more solid in strong wind or snow?

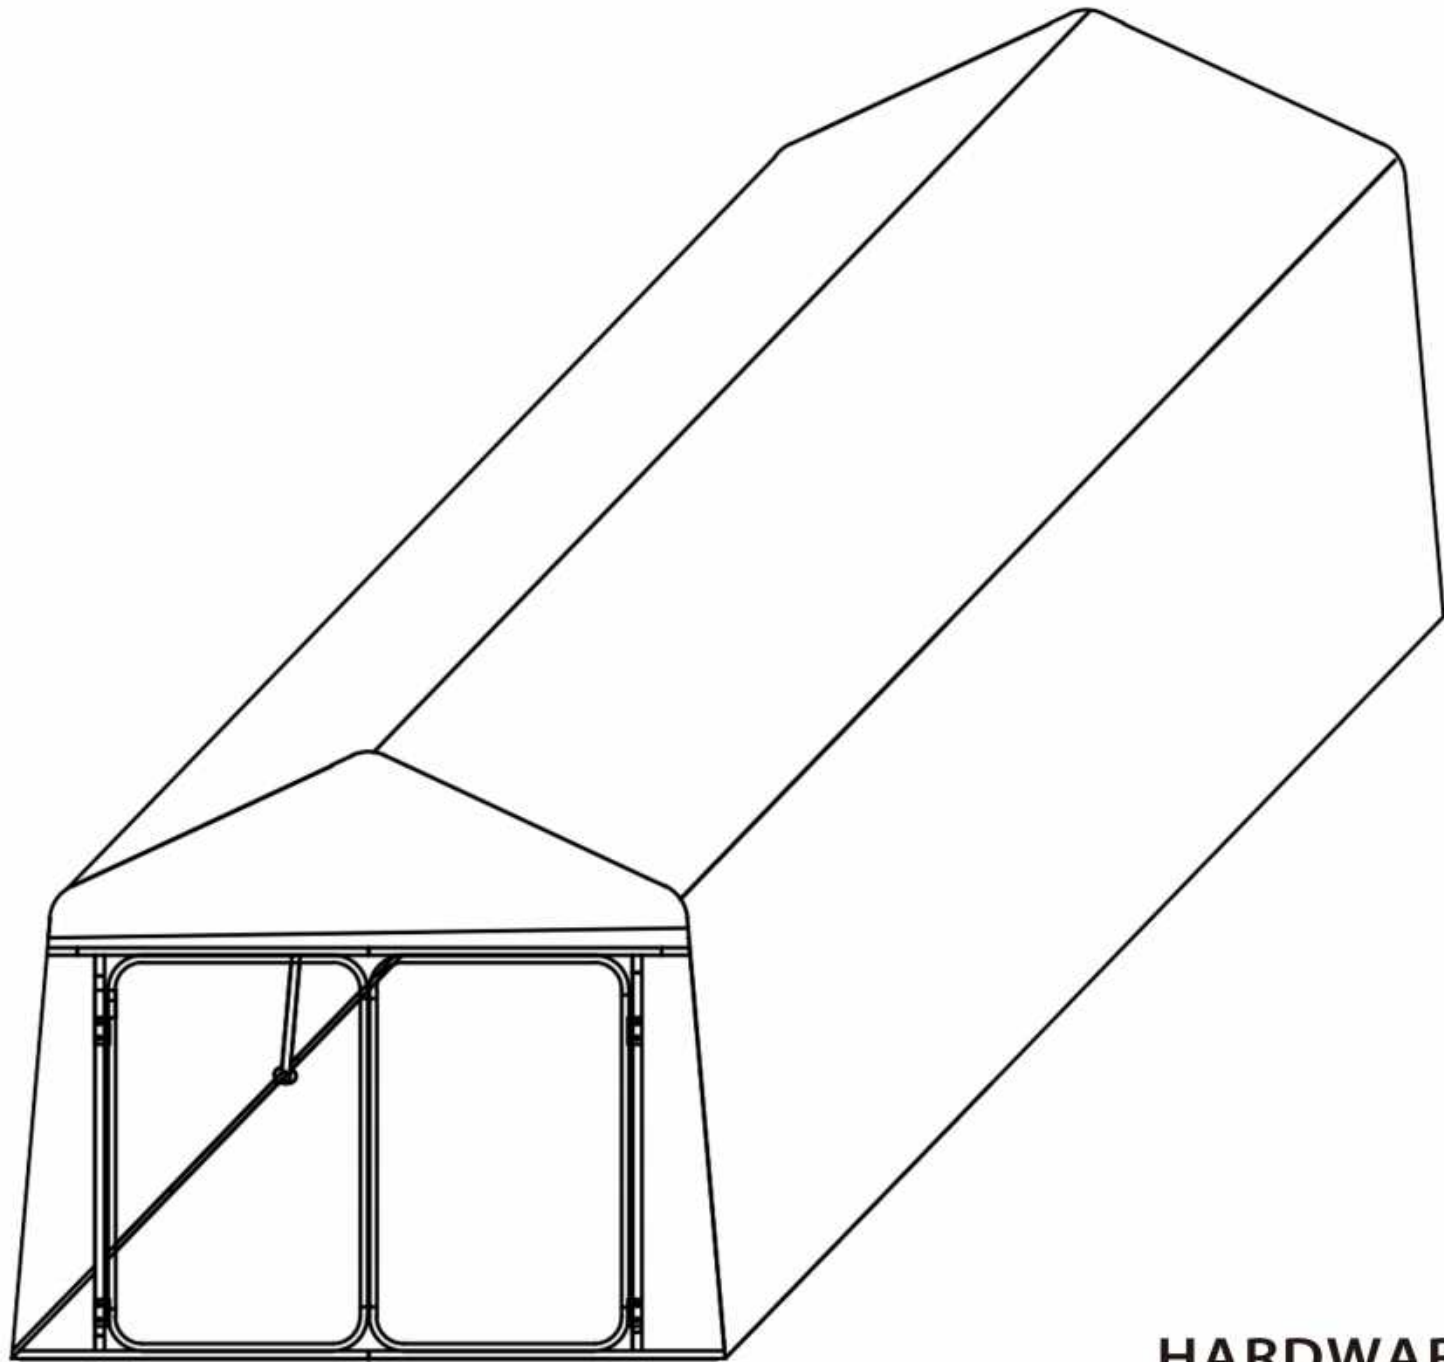

1. Make all the screws in perfectly fixed status
2. Use the buckle and ground pegs included
3. Dig a trench at the bottom of the frame, and bury the bottom steel pipe and cover with soil (this way is very efficient)
4. Let the whole greenhouse against the wall
5. Keep the door closed when not using
